

STATIC FUEL STORAGE

500L, 1000L, 2000L

Effective Temporary Storage

Specifications

Australian Made
Diesel Grade Polyethylene Construction
Standard Sizes up to 2000L
Lockable Fill Cap
Tank Breather
Tank Anchorage Points
Drain Plug Maintenance or Gravity Feed
Large Lid for Internal Cleaning
Feed and Return Ports
Options
Diesel, Electric , Hydraulic Dispensing Pumps
Non- Pressurised Fast Filling System
Site Specific Requirements
Fuel Level Dipstick
Trailer or Steel Skid Mounted

Poly diesel storage tanks provide a light and durable solution to diesel storage requirements.

Built from high quality polyethylene, these tanks are capable of withstanding harsh environments.

Diesel, electric, solar, or hydraulic power dispensing options available to match your specifications.
